Research Interests. My interests lie in the theoretical foundations of machine learning, with a focus on developing principled approaches to learning under uncertainty. My work explores continual learning, bounded rationality, epistemology, and subjective perspectives on probability theory.

Education

- 2024–2028 **Ph.D in Machine Learning Systems**, UNIVERSITY OF EDINBURGH.
Advisors: David Abel, Amos Storkey.
- 2019–2023 **MEng Electronic Engineering with AI**, UNIVERSITY OF SOUTHAMPTON.
First Class Honours
Advisors: Jonathon Hare, Geoff V. Merrett
Thesis: *Improving Inference Efficiency with Dynamic DNNs*
Thesis: *Detecting, Mapping, and Verifying Signage*

Professional Experience

- Spring 2024 **Senior Research Assistant**, [project page](#), UNIVERSITY OF SOUTHAMPTON.
- Summer 2023 **Data Science Intern**, [hackathon](#), CIRIUM, RELX GROUP.
- Summer 2022 **Undergraduate Research Scholar**, [project page](#), UNIVERSITY OF SOUTHAMPTON.

Awards

- 2024 EPSRC Machine Learning Systems Scholarship
- 2022 Undergraduate Research Scholarship

Publications

[Conference Papers](#) / [Workshop Papers](#)

Forgetting is Everywhere

Ben Sanati, Thomas L. Lee, Trevor McInroe, Aidan Scannell, Nikolay Malkin, David Abel, Amos Storkey.
[\[Oral\]](#) The Continual RL Workshop, RLC 2026.

Invited Talks

- 2026 Forgetting is Everywhere. [Continual RL Workshop, RLC 2026](#).
Introduction to Reinforcement Learning. [Reading Group, Imperial College London](#).
Forgetting is Everywhere. [IML Workshop, University of Edinburgh](#).
- 2025 The Fundamental Problem of Forgetting. [ANC Workshop, University of Edinburgh](#).

Service

- Reviewing 2026: Continual RL (Workshop) – [RLC 2026](#).
Conference on Lifelong Learning Agents – [CoLLAs 2026](#).
Continual Adaptation at Scale (Workshop) – [CATS@ICML2026](#).
- 2025: Finding the Frame (Workshop) – [RLC 2025](#).
